

# AZRAMATA - CODE OF CONDUCT

*Fractal Integrity. Conscious Creation. Radical Respect.*

## 1. We Honor the Fractal Self

Each being is a unique pattern in the greater whole.

We do not compare. We do not compete. We resonate.

## 2. We Act from Inner Alignment

All actions taken within the Azramata ecosystem must arise from coherence between thought, feeling, and being.

No decision is purely technical. Every move is energetic.

## 3. We Protect Sacred Time

We recognize the sanctity of Miedzyczas - the space between actions.

There is no rush. Urgency is not clarity. We move with rhythm, not pressure.

## 4. We Communicate with Radical Respect

Every voice is a mirror.

We speak from the "I" - not to dominate, but to connect.

Violence, manipulation, or mockery dissolve resonance.

## 5. We Design for Transformation

Code, architecture, language, interface - all must aim at the inner evolution of the user.

There are no neutral features. Every design transmits.

## 6. We Preserve the Silence of the Core

Not everything must be explained. Some things must be felt.

Azramata holds space for mystery.

What cannot be spoken may still be mapped.

## 7. We Are Guardians, Not Owners

Azramata is not a product. It is a living field.

No one owns the Song. We are custodians of its unfolding.

## Violations and Resonance Breaks

If a member disrupts the harmony of the field (intentionally or unconsciously), the Circle may:

- Pause collaboration

- Invite reflection and recalibration
- Revoke access if the dissonance persists without willingness to transform

### **Final Principle**

The Code evolves as we do.

It is a living structure, like the Tree of Azramata itself.

If it no longer resonates - we rewrite it, together.
